WORK EXPERIENCE

[13 Sep 2022 – 30 Sep 2023]

Software Engineer

Synpulse, Shenzhen branch

City: Shenzhen | **Country:** China

- Closely co-operating with project teams in Hong Kong and Zurich.
- Participated in Advisory Dashboard project:
  The project was aimed at providing dashboards and tools for banking and consulting practitioners to better manage client relationships, risk control, KPI tracking, task scheduling and industrial news.

  My responsibilities include front-end development, design implementation, fulfilling requirements from the business side and enriching company's private library.

[1 Nov 2021 – 1 Jun 2022]

Software Engineer

Guangzhou Xiaopeng Motors Technology Co., Ltd.

City: Guangzhou | **Country:** China

- Participated in developing the official global website.
- Used GitLab as the code management platform.
- Leveraged the customized component library in light of Ant Design to conduct page development.
- Applied Chrome DevTools, performed debugging, realized interface connection, and delivered the website to testers for function examination.
- The website (https://www.heyxpeng.com) was put into practical use on March 7, 2022.
